Company history/background

We offer a wide range of forest plots in Romania, ranging from 50 to 1,000 hectares, with the possibility to expand up to 10,000 hectares, spread across the entire country, mainly in Transylvania (Carpathians).

The plots come with complete cadastral documentation. You can choose from young or mature forests with a variety of wood types. These properties are ideal for forestry, hunting, forest management, and obtaining forestry subsidies.

Sales are handled by a Dutch real estate agent based in Romania, in the heart of the country, Brasov. For more

information or any inquiries, feel free to contact us via the contact button. We are happy to assist you with all your questions.
